

The World Energy Council held its annual AOG Show this past October, the largest show in Latin America for oil and gas. The AOG alternates locations between Brazil and Argentina every other year.

This year, for the first time, ELSTER-AMCO and Instromet S.A. shared an exhibitor stand. Together, ELSTER-AMCO and Instromet, S.A had a variety of impressive metering and regulation products prominently displayed.

WEC-AOG SHOW

A Success for ELSTER-AMCO-INSTROMET

ELSTER-AMCO showcased its RPM Rotary Meter, AccuTest Meter, EK210 Corrector, BK-G1.6 Meter, Perfection's piping and couplings, and American Meter's TRACE product alongside Elster's EuroTrace line. Instromet displayed such items as their ultrasonic and turbine meters along with their volume correctors and Chromatograph. Attendance at the show was quite considerable and customers from all over Latin America came to the stand inundating company representatives with questions and comments about the pro-

ELSTER-AMCO & Instromet co-exhibit in Buenos Aires

ducts. During the show, many product presentations were given at the display area, while various shows, raffles and entertaining presentations were held across the trade show floor.

Overall, the show was a successful exhibition for the two partners and concluded a lot of interest of customers and visitors.
