

# American Meter awards the **AGA Distribution Achievement Award** to Industry Contributor

Every year at the annual American Gas Association Conference, American Meter Company sponsors an award, the AGA Distribution Achievement Award. This is given to a person in the industry who has made significant contributions to the industry and its safety and standards.

This year's recipient is David Berger of KeySpan Energy. The award ceremony was held in Chicago, Illinois, on May 13th, 2002, where President and CEO, Harry I. Skilton, presented a plaque and check to David.

David Berger was chosen in recognition of his work in developing a sound engineering Direct Assessment Process for evaluating 'unpiggable' sections of pipeline for his company. As a result of his work, he has become a National Ambassador for Local Gas Distribution Companies for Direct Assessment.
