

**QIANWEI KROMSCHROEDER METERS CHONGQING CO. LTD  
UNVEILING CEREMONY OF BK-G2.5**

**BK-G2.5 is now available in China**

The unveiling ceremony of the BK-G2.5 at Qianwei Kromschroeder was successfully held on Nov. 5 in Chongqing. Finally, the first BK-G2.5 meter rolled off the production line after many months of hard work getting the line equipment in place, testing and calibration, quality control, training of workers, etc.

Attending the ceremony were Dr. Hubert Dombrowski, Chairman of Kromschroeder, Johann v. Graevenitz, Chief Financial Officer and Member of the Board of Directors, Joachim Klute, Managing

*Duan Youde (Qianwei) and Dr. Hubert Dombrowski (Kromschroeder), unveiling the Joint Venture's first BK-G2.5 meter*

Duan Youde added that the Joint Venture had made significant progress and development since the first co-operation agreement established in 1986. With the BK-G2.5 meter, he is confident that the product will be well accepted by our customers and the company will increase its sales significantly in the coming years.

The visitors later proceeded to the factory to have a first-hand view of the manufacturing process of the BK-G2.5. It was a real eye-opener for some of them as they had not seen such advanced and automated equipment used in the manufacturing of gas meters in China.

Director, Mr. Ingo Prasse, Technical Director and Philip Lam, Regional Director for Asia.

Also in attendance were Duan You de, Chairman of Qianwei Kromschroeder, Chen Junsheng, Deputy General Manager of Chongqing gas company and nearly 200 dignitaries from various gas companies in China. Presiding over the ceremony was Meng Li, General Manager of Qianwei Kromschroeder.

Dr. Hubert Dombrowski said: "I am pleased to announce that the BK-G2.5 residential diaphragm meter is now in full production and ready to go on sale in China. Qianwei Kromschroeder will produce more than 150,000 BK-G2.5 meters in the first year. This figure will grow rapidly to cater to the growing market for residential meters in China."
