

GAS CHINA 2006 INTERNATIONAL EXHIBITION ON NATURAL GAS, LPG, COAL GAS TECHNOLOGY AND EQUIPMENT

GASEX 2006 Conference & Exhibition

Since its first conference in 1990 and after seven events spanning over a decade, GASEX, the platform of information exchange for gas development in the Asian and Pacific region, has become an important international activity. The GASEX 2006 Conference & Exhibition were held jointly with the GAS CHINA 2006 Exhibition in Beijing from 6 to 8 September.

The Elster family

Technical exchange with customers

As the largest international gas technology and equipment exhibition in recent years, Gas China 2006 and the GASEX 2006 Exhibition attracted 251 exhibitors from China and other countries around the world. For the first time, various national petroleum and natural gas companies from South-east Asia had their own stands in this exhibition, such as Brunei LNG, PTT, Petrovietnam Gas Company and Petronas.

Having acquired the best position in the exhibition hall, under the umbrella of Elster Group, the major sister companies, Elster-Instromet, American Meter Company, Elster-Jeavons, Kromschröder and Shanghai Elster-Amco Gas Equipment company exhibited their main products including the Q.Sonic-4 ultrasonic meter, the SM-RI-X turbine meter, gas-net F1 and FC 2000 flow computers, the EnCal 3000 energy meter, various types of regulators and diaphragm meters, JV's TR22

turbine meter, rotary meters and electronic correctors. During the three day show, over 1500 professional bodies visited our stand. Most of the visitors were from the main local gas companies; some were from PetroChina, Sinopec, CNOOC and Southeast countries – among these, there were several VIPs such as the Chairman of the Board and the GM of Beijing Gas Group, the Vice Director of Shanghai Municipal Engineering Management Bureau, the GM of Shanghai Gas Group and the VP of Hongkong China Gas Limited.

This fantastic event showcased the skills and capacity of our world leading gas metering and control products manufacturers as well as the great opportunity presented by high levels of technical communication and exchange with our customers.

The next GASEX is planned to take place in Hanoi, Vietnam in 2008 and GAS CHINA 2007 will be held in Nanjing, Jiangsu Province. With the development of the natural gas industry in Asia, an

Representatives of Beijing Gas Group

increasing number of companies will pay greater attention to this region. We hope the next event will be even more successful.
